

PROCLIP MOUNTING PLATFORM

VEHICLE SPECIFIC MOUNTING BRACKET

Keep your device within easy sight and reach in your car! The ProClip makes it easier and safer to use handheld devices in vehicles. The ProClip is a mounting bracket that you attach to the dashboard of your car. Onto the ProClip, you can install any accessory, e.g. a holder for mobile phone or other communication device.

The ProClip is car specific, it is customized for each car model and has a perfect fit. The ProClip offers a firm mounting platform and is available in multiple positions for most vehicles. Discreet design that blends in well with the interior. Safe, neat and convenient!

The ProClip is easy to install, you can do it in a minute! You simply snap the ProClip into place in gaps in the interior, you do not need to drill holes or use special tools or dismantle the dashboard. Detailed mounting instructions included. Developed and produced in Sweden
